Lilly Kepler

09/11/2009 – 12/23/2023

My sweet brave Lilly, the vet told us in Feb. of 23 you had congestive heart failure and would probably not live more than 8 or 9 months. You did my sweet girl, you fought to stay with me. I was so afraid of not knowing when it was time, but it became evident when you were struggling to breathe. You were my best friend, always there for me no matter my mood. I was so blest to have you, my heart is sad and I miss you so very much. I got Covid shortly after you crossed, and so wished you were here to talk to. My sweet girl, you will forever be in my heart. Love, Momma
